HOME COMING ARRANGEMENTS.

After months of arduous labor the committee in charge of the Joyous Buckeye Home Coming to be held in Columbus, September 2, 3, 4, 5, 6, next, announces that all plans for welcoming and entertaining the thousands of Buckeyes who have signified their intention of returning to participate in the joyful festivities, are now complete. During the day the visitors will be entertained with an elaborate program on the Ohio State Fair grounds, while in the evening the citizens of Columbus will provide public receptions, musicals, pyrotechnical displays and noted aerial acts for their entertainment. Columbus is now in gala attire in honor of the home comers, and all visitors will be royally welcomed.

Lack of space prevents our presenting in this issue the official program for the entire week, but below we print the program for the opening day, Monday, September 2, and our readers are assured that each day will be equally as interesting and entertaining.

CEDARVILLE WON.

Cedarville holds the championship of Greene county when it comes to baseball. This was decided last Saturday when the Xenia Nationals were given a defeat by the Cedarville Reds.

The game was the fastest and hardest fought game that has been played in Xenia according to those who say it. The score was close all through the game. From the fourth until the last half of the ninth inning the score was a tie 4 to 4. In the last half of the ninth the Reds added one on their side of the score board that caused Manager Richards to smile as he had never done before. During the tie there was the greatest excitement among spectators and players.

LABOR DAY.

More magnificent than ever before will be the fireworks display given by the Trades and Labor Assembly of Springfield at the Clark County Fair Grounds on the evening of Labor Day, Monday September 2d. These pleasing features of Springfield's annual Labor Day celebration have attracted wide-spread attention, not only in Clark county but in all the cities and towns within a radius of 100 miles from the Home City. More money is being expended and a greater variety of the latest creations in pyrotechnics will be shown this year than ever before.

The display will open with a volley of magnificent report shells that explode high in the air and can be heard for miles around. Then will follow a grand illumination of the entire surroundings by means of 48 powerful prismatic illuminators in red and green, turning night into day. From this time on for an hour and a half, the inside of the race course will be one magnificent blazing front of towering rockets, exploding shells, vari-colored candles, aerial bouquets, mechanical set pieces showing the Niagara Falls, the East India Sun, Automatic fan the Peacock with spreading tail, and a dozen others, the whole closing with a Grand Finale which represents a mammoth flower garden, consisting of cascades, batteries, silver comets, explosions of mimes, swinging columns of gold and silver, quivering, hissing and darting in every direction and finally concluding with a grand flight of 100 four-pound rockets.

The entire celebration this year will consist of many gaudy attractions, including a grand parade at 9:30 in the morning of all organized labor in the city. The afternoon and evening will be given to the open air attractions at the fair grounds, consisting of vaudeville acts, running races, daylight fireworks, band concerts and numerous other entertainments designed to please the people. The best plan is to come in the morning and stay until after the fireworks in the evening.

OPEN DATE LABOR DAY.

Labor Day, Monday, September 2, will usher in the Fifty-seventh Annual Ohio State Fair and Industrial Exposition, and from the unusually heavy entries in each of the seven district departments of the Fair the fourth coming exhibition will be the grandest and greatest in the history of the state.

The State Fair grounds present a busy state of activity with the army of exhibitors hurrying to completion the installation of their exhibits, which, under the rules of the State Board, are required to be in place by nine o'clock the morning of the opening day.

Captain Knabenshush has arrived with his monster-carrying air-ship, after which the engines and aeroplanes will be tested and all will be in complete readiness for the flight over the city of Columbus on Monday morning, September 2. Great interest has centered in this latest aerial invention, and the daring Captain is in receipt of more than one hundred applications from persons who desire to accompany him on his trip to the clouds. The Captain recently stated that, while in all probability he would be unable to accommodate all applicants, he would endeavor to favor as many as possible. In addition to his flights over the city with the press correspondents he will twice daily maneuver his craft over the fair grounds, concluding each exhibition by encircling the race course.

TEDDY GOES TO THE FRONT.

Cedarville has always been honored by her sons coming to the front. This has again been exemplified by recent action of one of the leading National baseball players, Garry Herriman, president of the Cincinnati team and also head of the National baseball league.

Ed. Hanlon has resigned as manager of the Cincinnati Reds and a new man is sought for his place. Baseball dope has it that Herriman is looking toward Edwin P. H. Richards, manager of the Cedarville Reds, with considerable favor. In fact it is claimed that a noted baseball fan has been in our midst looking up Teddy's work as manager. When it is known that such famous baseball players as Eddie Ashenback, John Ganzel and J. Ed. Gilroy are also mentioned for this place great praise is due Manager Richards. The qualifications of a manager to select base ball talent certainly lies in the Cedarville manager.

The Cedarville Reds are now champions of the county and have not been defeated this year, something no other team in the county can boast of. His management of this team has drawn the attention of base ball magnates and writers over the country.

Lovers of base ball and citizens in general feel greatly honored in knowing that Teddy is being considered for such a place and his success in the appointment would probably mean that several of his players on the local team would get places with the Cincinnati Reds.

An announcement and an invitation

Following the custom of the leading metropolitan stores we announce for this week the opening of our entire fur department. While in no sense a formal opening with music, flowers, etc., we will consider it a pleasure to show you thousands of dollars worth of the cleverest conceits in the fur coats, neckwear, muffs etc., of American and European manufacture. Every fashionable and popular fur represented, and the saving in buying now cannot fail to impress you.

To those contemplating remodeling their fur garments this early display means much as you have the benefit of all these imported and domestic models in deciding upon styles. Summer prices still prevail and better work simply cannot be done. Where recruitings is necessary all fittings are made with canvas models and misfits rendered impossible.

Among other unusual attractions is an assortment of ostrich and marabou feather boas. We bought the entire sample line of an importer retiring from business and retail these exquisite boas at less than wholesale prices. Every shade is included, black, white, light blue, tan, mode, gray, etc., but no duplicate.

The annual meeting of the Cedar-
ville Bible Society was held Tues-
day forenoon in the U. P. church.
Notwithstanding the meeting was
at an unfavorable hour a goodly
number of interested people were
present. It was the most encour-
aging meeting that the society has
had for several years. The canvass-
ers appointed by the Board to canv-
ass the village and township did
their work faithfully, and besides
advertising the Bible Society work
in nearly every home, they turned
into the treasury \$101 into the treas-
ury. Some homes found to be des-
titute of Bibles will be supplied.
The Board thanks the canvassers
and others for the interest they have
taken the work.

Next year there will be a special
anniversary program as it will be
70 years since the Society was or-
ganized.

**Governor Harris and Other State
Officials Dedare Ohio Solid
For War Secretary.**

If anywhere in or out of the state of Ohio doubt existed of the hearty support of the candidacy of William Howard Taft by the Republican state administration that doubt has been removed by declarations for Taft made by Governor Andrew L. Harris and the three most important state officers,

Declares For Taft:
This statement is declaratory for Taft, and advises against confusing the senatorial and presidential issues. All Ohio Republicans are urged to unite to give Taft a solid delegation from this state. All Republicans are also urged to postpone consideration of the senatorial question until next year.

Only one Candidate.

"It appears that the state officers have refrained from making any statement because they did not want to add to the present threatened confusion of the issue of the presidency with that of the next senatorial vacancy. They believe that, since Ohio has but one candidate for president, it is important that they should have the loyal and united support of the whole state this year in order to promote his candidacy throughout the country, and since Ohio may have more than one candidate for the senatorship and it is neither important nor appropriate that this question should be settled at this time, Representatives of the state who are already united on the presidency should make known their unity on that question now, and if they are divided on the senatorship they can afford to cease emphasizing that division now, for next year they may not be divided."

SECRETARY TAFT'S CANDIDACY

The presidential candidacy of Secretary Taft has entered upon a new phase. Congressman Burton, in a speech to an Eastern Republican gathering, and the Ohio commissioner of insurance, Mr. Vorys, known to be the manager of the Taft campaign in that state, have announced definitely that they will support him for the presidential nomination and will remain one until the adjournment of the national convention.

A few months ago Secretary Taft, while indicating that he would accept a nomination if it should legitimately fall to him, had indicated that he had no belief in such contingency was by no means strong, since his "continued devotion to the duties of his position" was not adding to his popularity with certain elements in the party. The secretary was understood to be alluding to his place for maintaining his principles as against a standpoint of selfishness and to his attitude toward the Cuban and Isle of Pines questions. But events have marched since that candid statement was made.

The progressive Republicans of the country, east and west, are aligning themselves behind Taft as the best representative of the reform spirit of the Roosevelt administration, as the safest and soundest man to carry forward and perpetuate the policies which Taft has so effectively promoted and which in turn have made him so strong and influential. Humanism, Formalism and Bourgeoisism have emphasized the need of a candidacy that would in itself convey an assurance of progress and a guaranty against reaction.—Chicago Record-Herald.
